

What is claimed is:

[claim 1]

A gaming machine comprising:

game result display means for displaying a result concerning with a
5 game; and

beneficial state generating means for generating a beneficial state for a
player when a predetermined game result is displayed on the game result
display means;

wherein the game result display means includes first display means
10 and second display means arranged at a more front side than a display area
of the first display means when seen from a front side of the gaming machine,

wherein the first display means or the second display means includes a
first display area and a second display area; and

wherein a display mode of game information concerning with the game
15 differs in a case that the game information is displayed on the first display
area and in a case that the game information is displayed on the second
display area when the game information is displayed so as to move between
the first display area and the second display area.

[claim 2]

20 The gaming machine according to claim 1, wherein the first display
area and the second display area are included only in the second display
means.

[claim 3]

The gaming machine according to claim 2, wherein moving velocity of
25 the game information in the first display area is faster than the moving
velocity of the game information in the second display area.

[claim 4]

The gaming machine according to claim 1, wherein the first display

area is an area where the result concerning with the game is displayed.

【claim 5】

The gaming machine according to claim 1, wherein the display mode of the game information is a mode in which a stop display time of the game
5 information in the first display area is shorter than the stop display time thereof in the second display area.

【claim 6】

The gaming machine according to claim 1, wherein a person concerning with the game is able to operate the gaming machine so as to change the
10 display mode.
